

I am writing in regards to the expansion of the LPFM stations and the affect that this would have on the only radio station I listen to, K-Love. Because LPFM stations would take priority over stations like K-Love, there is a possiblity that I would loose the K-Love signal if LPFM stations were expanded. As a resident of Tulare, California I don't have many options for an all Christian station with no secular advertising. For myself and many other Tulare listeners, we need K-Love as it is our only source of Christian music and would be forced to find alternative music (as opposed to Christian music) if K-Love were displaced by LPFM stations. K-Love gives families like mine the freedom to listen to the radio without hesitation. We can be confident that because of K-Love our children will not be bombarded with the disgusting display of sex, drugs and violence heard on secular radio stations. K-Love is not only in the best interest of Tulare, it is in the best interest of all families across America. Please do not take away one of the only moral things our families have to listen to by expanding the LPFM stations.
